Required Coursework for Admission

Course Name	Hrs.	TCCNS	TAMU
Engineering Math I	4	MATH 2413	MATH 151
Engineering Math II	4	MATH 2414	MATH 152

- Students may have to complete Trigonometry and Pre-Calculus (MATH 2412) at their institution before taking MATH 2413.
- Trigonometry and Pre-Calculus are transferable courses but **will not** satisfy the Mathematics requirements in this degree plan.

The recommendations below represent what a typical TAMU student's schedule looks like during the first four semesters. If working to complete an Associate's Degree before transferring, please align your degree plan to satisfy TAMU degree requirements. You may not have to complete the coursework in the sequence below but this major requires or recommends specific coursework to be completed.

Coursework Timeline
- Competitive applicants will have the Required coursework completed by the application deadline.
- Applicants to the fall term **may be** asked to submit spring final grades, this is not a guarantee.
- Summer coursework **will not** be considered for fall applicants.
- The Department of Visualization will only be accepting transfer students for fall admission.

Additional Transfer Requirements
- The Department of Visualization is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.
- Meeting minimum requirements **does not** guarantee admission. The entire record is reviewed for consistency in coursework and grades.

Additional Information
- Applicants should be serious about earning a degree in Visualization.
- Transfer applicants are instructed **NOT** to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.

Career & Educational Opportunities
Visual media entertains, informs, and motivates. Students pursuing a degree in Visualization may plan on careers in areas such as graphic design, advertising, animation, marketing, web design, and other types of careers requiring creativity and design skills. Their skill sets allow them to explore, analyze, and create visual solutions to various types of communication problems. They find the most effective way to get messages across in various types of mediums, including, print, electronic, and film media using a variety of methods, such as illustration, photography, animation, and various print and layout techniques.
