**Additional Information**

The Department of Economics is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.

Economics is a social science that uses mathematical and statistical tools to evaluate and analyze human behavior, particularly behavior related to the use and allocation of resources. A strong mathematical ability and solid study habits are essential to success in the Economics major

Second-choice majors are considered.

**Economics is not a pathway to any degree in the Mays Business School.**

**DO NOT** use admission to ECON as a stepping stone to a major in the business school, as the business school does not accept change of majors.

Instead, choose the major that best fits with your interests.
