Coursework Timeline

- Competitive applicants will have the Required and Recommended coursework completed by the application deadline.
- Applicants to the summer/fall term **may be** asked to submit spring final grades, this is not a guarantee.
- Summer coursework **will not** be considered for summer/fall applicants.
- Fall coursework **will not** be considered for spring applicants.
- Applicants to the spring term should have the Required and Recommended coursework completed by the end of Summer II semester before applying.

Additional Transfer Requirements

- The Department of Atmospheric Sciences is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.
- Meeting minimum requirements **DOES NOT** guarantee admission. The entire record is reviewed for consistency in coursework and grades.

Additional Information

- Applicants should be serious about earning a degree in Meteorology.
- Transfer applicants are instructed **NOT** to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.

Career & Educational Opportunities

This major includes the study of sciences of the atmosphere, weather, and climate which are so important to human activities and life on this planet. Atmospheric science applies physics, mathematics, and chemistry to understand the atmosphere and its interactions with land and sea. One of the goals of atmospheric science is to understand the atmosphere well enough to make accurate predictions of important phenomena, such as weather, climate, and urban air quality.
