Statistics majors at TAMU take major specific courses in the third and fourth semester. These will need to be completed after transferring.
Coursework Timeline
- Competitive applicants will have the Required coursework completed by the application deadline.
- Applicants to the summer/fall term may be asked to submit spring final grades, this is not a guarantee.
- Summer coursework will not be considered for summer/fall applicants.
- Fall coursework will not be considered for spring applicants.
- Applicants to the spring term should have the Required coursework completed by the end of Summer II semester before applying.

Additional Transfer Requirements
- The Department of Statistics is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.
- Meeting minimum requirements does not guarantee admission. The entire record is reviewed for consistency in coursework and grades.

Additional Information
- Applicants should be serious about earning a degree in Statistics.
- Transfer applicants are instructed NOT to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.

Career & Educational Opportunities
The bachelor of science in statistics consists of instruction in the use of software to manage, visualize, and interpret data of all kinds; the use of probabilistic reasoning to draw conclusions from data; the design of experiments that provide insight into uncertain processes; and the use of data to build models for complex systems.

In completing this degree, students will also develop expertise in an outside area of their choosing. This degree requires an outside specialization including one of the following options: bioinformatics, business, computer science, industrial engineering, or mathematics. By carefully selecting elective courses, students who study statistics will likely be able to obtain a minor in their selected specialization area. For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes
1. Admission preference is given to applicants with the highest GPA and the most appropriate courses completed.
2. Transfer applicants are encouraged to complete University Core Curriculum coursework found in the Undergraduate Catalog unless specified above.
3. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Science at Texas A&M University with the Undergraduate Catalog having the most extant and definitive information.
