HIST 1302	HIST 106	History of the U.S.	3
ENGL 2311	ENGL 210	Scientific & Technical Writing	3
Total			16

Notes:

- HIST 226 (HIST 2301) Texas History can be taken as one of the HIST courses.

IMPORTANT: Landscape Architecture consists of 4 years of fall or spring sequential studio courses; therefore, all students will have an additional 4 years once they transfer to Texas A&M. The sequence begins in a fall semester; therefore, a LAND student will graduate no earlier than 4 years after their first fall at Texas A&M—no exceptions. For instance, if a student begins the studio sequence in Fall 2025, they will not graduate any earlier than Spring 2029.

Coursework Timeline

- Competitive applicants will have the Required coursework completed by the application deadline.
- Applicants to the summer/fall term **will be** asked to submit spring final grades before a decision is made.
- Summer coursework **will not** be considered for summer/fall applicants.
- No spring applicants.

Additional Transfer Requirements

- The Department of Landscape Architecture and Urban Planning is looking for students who are interested in pursuing our degree as a focus. Students should indicate Landscape Architecture as their first choice major if they wish to be admitted. The essay and supporting materials should reflect that the student is interested and has some knowledge of what a landscape architect does.
- Meeting minimum requirements **does not** guarantee admission. The entire record is reviewed for consistency in coursework and grades.

Additional Information

- Transfer applicants are instructed **NOT** to accept transfer admission to Landscape Architecture with the expectation of later applying for an on-campus change of major.

**Career &
Educational Opportunities**

Landscape architects create useful and attractive outdoor environments. They use natural elements such as land, trees, and shrubs, to create attractive settings for buildings, highways, and parks. Landscape architectural project types include residential communities, private gardens, urban designs, college campuses, park facilities, regional landscape planning, etc. Graduates from the Bachelor of Landscape Architecture (BLA) program are prepared for employment with private practice firms in landscape architecture, engineering, architecture, or planning; and with federal, state, or local government agencies. Upon graduation students are qualified to pursue licensure in the profession or post graduate education in landscape architecture or a related field. For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes

1. Admission preference is given to applicants with the most competitive application looking at GPA, the most appropriate courses completed, and demonstration of urban planning knowledge and interest in the essay.
2. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Architecture at Texas A&M University with the Undergraduate Catalog having the most extant and definitive information.
