2024-2025 Transfer Course Sheet
Minimum GPA | 3.5
Minimum Transferable Hours | 24
Maximum Transferable Hours | 64
Second-Choice Major Eligible | NO

Required Coursework for Admission

Course Name	Hrs.	TCCNS	TAMU
Engineering Mathematics I	4	MATH 2413	MATH 151
Engineering Mathematics II	4	MATH 2414	MATH 152
Chemistry for Engineers and Lab	4	CHEM 1409 or CHEM 1412*	CHEM 107/117 or CHEM 120
Physics for Engineers I	3	PHYS 2425 or 2325	PHYS 206
Composition and Rhetoric	3	ENGL 1301	ENGL 103

This transfer course sheet is applicable for applicants applying between August 1st, 2024 and October 15th, 2025.

Transfer applicants admitted to Texas A&M Engineering with credit for PHYS 2425 (2325/2125) and PHYS 2426 (2326/2126) may only receive 6 credit hours towards their Engineering bachelor's degree.

- Applicants should complete the courses listed with a grade of B or better before submitting the transfer application.
- Students may have to complete Trigonometry and Pre-Calculus (MATH 2412) at their institution before taking MATH 2413.
- Trigonometry and Pre-Calculus are courses that transfer, but **will not** satisfy the Mathematics requirements in this degree plan.
- *Prospective students attending an institution without an equivalent to CHEM 107/117 can transfer an equivalent to Fundamentals of Chemistry II (CHEM 120 – CHEM 1412) to fulfill the CHEM 107/117 requirement. Students who take CHEM 107/117 (CHEM 1410) do not need to take CHEM 119 and CHEM 120.

The recommendations below represent what a TAMU student's schedule may look like during the first four semesters minus the TAMU College of Engineering courses. If working to complete an Associate's Degree before transferring, work with your current academic advisor to align your degree plan with TAMU degree requirements to the extent possible. You may find an actual TAMU student's schedule at <https://catalog.tamu.edu/undergraduate/engineering/civil-environmental/bs-general-civil-engineering-track/>

First Year

FALL SEMESTER

TCCNS	TAMU	Course Name	Hrs.
CHEM 1411 (1311/1111) CHEM 1409	CHEM 119 or CHEM 107/117	Fundamentals of Chemistry I or General Chemistry for Engineering Students	4
MATH 2413	MATH 151	Engineering Math I	4
ENGL 1301	ENGL 103	Composition and Rhetoric	3
	catalog.tamu.edu	University Core Curriculum	3
Total			14

SPRING SEMESTER

TCCNS	TAMU	Course Name	Hrs.
PHYS 2425 (2325)	PHYS 206	Physics for Engineers I*	3
CHEM 1412 (1312/1112)	CHEM 120	Fundamentals of Chemistry II**	4
MATH 2414	MATH 152	Engineering Math II	4
	catalog.tamu.edu	University Core Curriculum	3
Total			14

- ENGL 1301 may substitute for ENGL 1302, but the department will only apply credit for one of these two classes to the degree plan.
- Consider taking courses that fulfill the 3 hours of International and Cultural Diversity or Cultural Discourse requirements when completing the Social and Behavioral Sciences, free electives and Creative Arts core curriculum requirements.

*You may take the four credit hour version of PHYS but only three credits will apply.

Second Year

FALL SEMESTER

TCCNS	TAMU	Course Name	Hrs.
	catalog.tamu.edu	University Core Curriculum	3
ENGL 2311	ENGL 210	Technical and Business Writing	3
MATH 2415	MATH 251/253	Engineering Mathematics III	3-4
PHYS 2426 (2326)	PHYS 207	Physics for Engineers II*	3
Total			12

SPRING SEMESTER

TCCNS	TAMU	Course Name	Hrs.
	catalog.tamu.edu	University Core Curriculum	9
MATH 2320	MATH 308	Differential Equations	3
Total			12

2024-2025 Transfer Course Sheet
Minimum GPA | 3.5
Minimum Transferable Hours | 24
Maximum Transferable Hours | 64
Second-Choice Major Eligible | NO

- Consider taking courses that fulfill the 3 hours of [International and Cultural Diversity or Cultural Discourse requirements](#) when completing the Social and Behavioral Sciences, free electives and Creative Arts core curriculum requirements.
- *You may take the four-credit version of PHYS but only three credits will apply.

Coursework Timeline

- Competitive applicants will have the required coursework completed with a final grade by the application deadline.
- Summer coursework **will not** be considered for summer/fall applicants.
- Fall coursework **will not** be considered for spring applicants.
- Applicants to the spring term shall have the required coursework completed for a final grade by the end of Summer II semester before applying.

Additional Transfer Requirements

- Transfer applicants should have completed at least 2 full semester course loads of a total of 24 transferable hours (minimum) after graduating from high school.
- Applicants must earn a **B or better** in **all math, science, and engineering courses taken subsequent to the required coursework.**
- The Zachry Department of Civil & Environmental Engineering is looking for students who are interested in pursuing a career in civil engineering as a focus. The department will not admit students who do not indicate our department as the primary major. The essay and supporting materials must demonstrate explicit interest in a civil engineering career. The department gives preference to essays indicating experience in the field, special knowledge of civil engineering, and or participation in extracurricular activities or organizations related to civil engineering.
- Meeting minimum requirements **does not** guarantee admission. The entire record is reviewed for consistency in coursework and grades. Admission is for a finite number of places based upon competition among applicants meeting minimum requirements.

Additional Information

- Admission preference is given to applicants who are not already enrolled in a degree-granting civil engineering program at another institution.
- Admission preference is also given to applications who have fewer than 60 transferable credit hours.
- Transfer applicants are instructed **NOT** to accept transfer admission to any major with the expectation of later applying for an on-campus change of curriculum to civil engineering.
- The Zachry Department of Civil & Environmental Engineering makes admission decisions based upon final grades in required coursework and does **NOT** hold applications to wait for grades.
- Additional information on transfer into the Zachry Department of Civil & Environmental Engineering is available at <https://engineering.tamu.edu/civil/admissions-and-aid/transferring.html>
- Students are encouraged to complete or in progress of completing a computer programming course. Any language is acceptable: however, (in order of preference) Python, Matlab, and C++ are the preferred languages.

Career & Educational Opportunities

Considered members of the oldest engineering profession, civil engineers design, construct, supervise, operate, and maintain large construction projects and systems, including roads, buildings, airports, tunnels, dams, bridges, and systems for water supply and sewage treatment. Civil engineering is the broadest of the engineering disciplines, extending across many technical specialties that interact with one another. All civil engineering students must choose one of the eight tracks in the BS in Civil Engineering curriculum: construction engineering and management, coastal and ocean, environmental, general, geotechnical, structural, transportation, and water resources. Regardless of specialty, most civil engineers share a common value – serving their communities by improving the quality of life. For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes

1. Admission preference is given to applicants with the highest GPA and the most appropriate courses completed.
2. Transfer applicants are encouraged to complete [University Core Curriculum](#) coursework found in the [Undergraduate Catalog](#) unless specified above.
3. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Engineering at Texas A&M University with the 2023-2024 Undergraduate Catalog having the most extant and definitive information.
