This transfer course sheet is applicable for applicants applying between August 1st, 2024 and October 15th, 2025.

- ***Must make a grade of B or better in BIOL 111, BIOL 112**
- Transfer applicants are encouraged to complete [University Core Curriculum](#) coursework found in the [Undergraduate Catalog](#)
- Students may have to complete College Algebra (MATH 1314) at their institution before taking MATH 1324 or 1325.
- College Algebra is a transferable course but **will not** satisfy the Mathematics requirements in this degree plan.

The recommendations below represent what a typical TAMU student's schedule looks like during the first four semesters. If working to complete an Associate's Degree before transferring, please align your degree plan to satisfy TAMU degree requirements. You may not have to complete the coursework in the sequence below but this major requires or recommends specific coursework to be completed.

Career & Educational Opportunities

The Vertebrate Zoology track is tailored specifically for those ECCB students with a deep interest in vertebrates, their diversity, ecology, and conservation. This track capitalizes on the collective experience of ECCB faculty in the areas of vertebrate ecology, evolution, genetics, anatomy, physiology, and behavior to provide a comprehensive understanding of vertebrate biology and ecology that will prepare students for professional studies, as well as careers within government and non-government agencies associated with the conservation and management of vertebrates. In addition to core courses in ecology and conservation, ECCB students enrolled in this track complete coursework in vertebrate ecology, diversity, and evolution, and enroll in other national or international field courses that focus on vertebrates, including their collection and identification. This is a flexible track, which permits the inclusion of courses specifically required by graduate programs as well as schools of veterinary medicine. Students on this track may also use free electives to personalize or broaden their experience or tailor to meet certification requirements for many vertebrate-focused professional societies (e.g., American Fisheries Society or The Wildlife Society). For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes

1. Admission preference is given to applicants with the highest GPA and the most appropriate courses completed.
2. Transfer applicants are encouraged to complete University Core Curriculum coursework found in the Undergraduate Catalog unless specified above.
3. This Transfer Course Sheet was supported in a partnership between The Office of Admissions and the College of Agriculture & Life Sciences at Texas A&M University with the Undergraduate Catalog having the most extant and definitive information.
