This transfer course sheet is applicable for applicants applying between August 1st, 2024 and October 15th, 2025.

- *The BA in Computing requires 9 credits of core curriculum science; see core.tamu.edu for the list of approved course options.
- Courses listed should be completed with a grade of B or better.
- Students may have to complete Trigonometry and Pre-Calculus (MATH 2412) at their institution before taking MATH 2413.
- Trigonometry and Pre-Calculus are transferable courses but will not satisfy the Mathematics requirements in this degree plan.
- College Algebra is a transferable course but will not satisfy the Mathematics requirements in this degree plan.

The recommendations below represent what a TAMU student's schedule may look like during the first four semesters minus the TAMU College of Engineering courses. If working to complete an Associate's Degree before transferring, work with your current academic advisor to try and align your degree plan with TAMU degree requirements to the extent possible.

First Year

**FALL SEMESTER**

- core.tamu.edu Life & Physical Science 3-4
- ENGL 1301 Composition & Rhetoric* 3
- GOVT 2305 American History 3

**SPRING SEMESTER**

- core.tamu.edu Life & Physical Science 3-4
- COSC 1420 Introductory programming courses 4
- ENGL 2311 Technical and Business Writing** 3

Total 13

**FALL SEMESTER**

- core.tamu.edu Emphasis elective*** 3
- GOVT 2306 American National Government 3

**SPRING SEMESTER**

- core.tamu.edu Emphasis elective*** 3
- GOVT 2306 American National Government 3

Total 12

*Either ENGL 1301 or ENGL 1302 will fulfill three of the six required credit hours of Communication requirements

**You may select one of the following courses: ENGL 210 (ENGL 2311), ENGL 203, COMM 203 (SPCH 1315), COMM 205, COMM 243 (SPCH 2335).

Second Year

**FALL SEMESTER**

- core.tamu.edu Emphasis elective*** 3

**SPRING SEMESTER**

- core.tamu.edu Emphasis elective*** 3
- GOVT 2306 American National Government 3
Coursework Timeline
- Competitive applicants will have the Required coursework completed and the additional coursework in progress or completed by the application deadline.
- Applicants to the summer/fall term may be asked to submit spring final grades, this is not a guarantee.
- Summer coursework will not be considered for summer/fall applicants.
- Fall coursework will not be considered for spring applicants.
- Applicants to the spring term should have the Required coursework completed by the end of Summer II semester before applying.

Additional Transfer Requirements
- The Department of Computer Science and Engineering is looking for students who are interested in pursuing our degrees as a focus. Students should indicate one of our department’s majors as the primary major they are interested in if they wish to be admitted.
- The essay and supporting materials should reflect that the student is interested in pursuing our degree. A carefully formulated essay can have a positive effect if the applicant has unusual circumstances.
- Meeting minimum requirements does not guarantee admission. The entire record is reviewed for consistency in coursework and grades.

Additional Information
- Applicants are advised to keep copies of the syllabi for the specific section of classes to be transferred in case they are needed to document equivalence to Texas A&M University classes.
- The BA in Computing provides an opportunity to obtain computer science knowledge and skills to be coupled with interests in other areas such as science, liberal arts, etc., to allow students to pursue a broader range of career options. The degree program provides flexibility in the choice of courses in computer science as well as in another domain of interest.
- The emphasis area is intended to be a cohesive and focused area. The applicant is asked to identify the area in the essays included in the application. Additionally, the emphasis electives chosen for the course plan should be consistent with this area.
- Transfer applicants are instructed NOT to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.
- Applicants with prior coursework on computer programming in a language such as C, C++, or Java will be better prepared for our curriculum.

Career & Educational Opportunities
The Department of Computer Science and Engineering offers a Bachelor of Arts (B.A.) in Computing. The B.A. in Computing provides an opportunity to obtain computer science knowledge and skills to be coupled with interests in other areas such as science, liberal arts, business, education, etc., to allow students to pursue a broader range of career options. The degree program allows students to build up strong computational fundamentals while providing flexibility in the choice of courses in computer science as well as in another domain of interest. For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes
1. Admission preference is given to applicants with the highest GPA and the most appropriate courses completed.
2. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Engineering at Texas A&M University with the 2019-2020 Undergraduate Catalog having the most extant and definitive information.
