**2021-2022 Transfer Course Sheet**  
**Minimum GPA | 3.0**  
**Minimum Transferable Hours | 24**  
**Second-Choice Major Eligible | NO**

**Required Coursework for Admission**

| Course Name                 | Hrs. | TCCNS                 | TAMU     |
|-----------------------------|------|-----------------------|----------|
| Engineering Mathematics I   | 4    | MATH 2413             | MATH 151 |
| Fundamentals of Chemistry I | 4    | CHEM 1411 (1311/1111) | CHEM 119 |
| Physics for Engineers I     | 3    | PHYS 2425 or 2325     | PHYS 206 |

Transfer applicants admitted to Texas A&M Engineering with credit for PHYS 2425 (2325/2125) and PHYS 2426 (2326/2126) may only receive 6 credit hours towards their Engineering bachelor's degree.

- Applicants should complete the courses listed with a grade of B or better **before** submitting the transfer application.
- Students may have to complete Trigonometry and Pre-Calculus (MATH 2412) at their institution before taking MATH 2413.
- Trigonometry and Pre-Calculus are transferable courses but **will not** satisfy the Mathematics requirements in this degree plan.

The recommendations below represent what a TAMU student's schedule may look like during the first four semesters minus the TAMU College of Engineering courses. If working to complete an Associate's Degree before transferring, work with your current academic advisor to align your degree plan with TAMU degree requirements to the extent possible. An actual TAMU student's schedule may be found at [catalog.tamu.edu/undergraduate/engineering/#majorstext](http://catalog.tamu.edu/undergraduate/engineering/#majorstext)

**First Year**

**FALL SEMESTER**

| TCCNS                              | TAMU   | Course Name   | Hrs.      |
|------------------------------------|--|---|-----------|
| CHEM 1411 (1311/1111)<br>CHEM 1409 | CHEM 119 or<br>CHEM 107/117                      | Fundamentals of Chemistry I or General Chemistry for Engineering Students | 4         |
| MATH 2413                          | MATH 151   | Engineering Math I  | 4         |
| ENGL 1301                          | ENGL 103   | Composition and Rhetoric  | 3         |
|                                    | <a href="http://core.tamu.edu">core.tamu.edu</a> | University Core Curriculum  | 3         |
| <b>Total</b>                       |  |   | <b>14</b> |

**SPRING SEMESTER**

| TCCNS                 | TAMU   | Course Name                    | Hrs.      |
|-----------------------|--|--------------------------------|-----------|
| PHYS 2425 (2325)      | PHYS 206   | Physics for Engineers I*       | 3         |
| CHEM 1412 (1312/1112) | CHEM 120   | Fundamentals of Chemistry II** | 4         |
| MATH 2414             | MATH 152   | Engineering Math II            | 4         |
|                       | <a href="http://core.tamu.edu">core.tamu.edu</a> | University Core Curriculum     | 3         |
| <b>Total</b>          |  |                                | <b>14</b> |

- ENGL 1301 may be substituted for ENGL 1302, but the department will only apply credit for one of these two classes to the degree plan.
- Prospective students attending an institution without an equivalent to CHEM 107/117 can transfer an equivalent to Fundamentals of Chemistry II (CHEM 120 - CHEM 1412) to fulfill the CHEM 107/117 requirement.
- Consider taking courses that fulfill the 3 hours of [International and Cultural Diversity or Cultural Discourse requirements](#) when completing the Social and Behavioral Sciences, free electives and Creative Arts core curriculum requirements.

\*You may take the four credit hour version of PHYS but only three credits will apply.

\*\*Students who take CHEM 107/117 (CHEM 1410) do not need to take CHEM 119 and CHEM 120.

**Second Year**

**FALL SEMESTER**

| TCCNS            | TAMU   | Course Name                    | Hrs.      |
|------------------|--|--------------------------------|-----------|
|                  | <a href="http://core.tamu.edu">core.tamu.edu</a> | University Core Curriculum     | 3         |
| ENGL 2311        | ENGL 210   | Technical and Business Writing | 3         |
| MATH 2415        | MATH 251/253                                     | Engineering Mathematics III    | 3-4       |
| PHYS 2426 (2326) | PHYS 207   | Physics for Engineers II*      | 3         |
| <b>Total</b>     |  |                                | <b>12</b> |

**SPRING SEMESTER**

| TCCNS        | TAMU   | Course Name                | Hrs.      |
|--------------|--|----------------------------|-----------|
|              | <a href="http://core.tamu.edu">core.tamu.edu</a> | University Core Curriculum | 9         |
| MATH 2320    | MATH 308   | Differential Equations     | 3         |
| <b>Total</b> |  |                            | <b>12</b> |

- Consider taking courses that fulfill the 3 hours of [International and Cultural Diversity \(ICD\) or Cultural Discourse \(CD\) requirement](#) when completing the Social and Behavioral Sciences, free electives and Creative Arts core curriculum requirements.

\*You may take the four-credit version of PHYS but only three credits will apply.

**2021-2022 Transfer Course Sheet**  
Minimum GPA | 3.0  
Minimum Transferable Hours | 24  
Second-Choice Major Eligible | NO

#### Coursework Timeline

- Competitive applicants will have the required coursework completed by the application deadline.
- Summer coursework **will not** be considered for summer/fall applicants.
- Fall coursework **will not** be considered for spring applicants.
- Applicants to the spring term shall have the required coursework completed by the end of Summer II semester before applying.

#### Additional Transfer Requirements

- Transfer applicants should have completed a full semester (spring or fall) course load of 12 transferable hours (minimum) after graduating from high school.
- The Zachry Department of Civil & Environmental Engineering is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in a career in civil engineering. The department gives preference to essays indicating experience in the field, special knowledge of civil engineering, and or participation in extracurricular activities or organizations related to civil engineering.
- Meeting minimum requirements **does not** guarantee admission. The entire record is reviewed for consistency in coursework and grades. Admission is for a finite number of places based upon competition among applicants meeting minimum requirements.

#### Additional Information

- Admission preference is given to applicants who are not already enrolled in a degree-granting civil engineering program at another institution.
- Admission preference is also given to applications who have fewer than 60 transferable credit hours.
- Transfer applicants are instructed **NOT** to accept transfer admission to any major with the expectation of later applying for an on-campus change of major to civil engineering.
- The Zachry Department of Civil & Environmental Engineering makes admission decisions based upon final grades in required coursework and does NOT hold applications to wait for grades.
- Additional information on transfer into the Zachry Department of Civil & Environmental Engineering is available at <https://engineering.tamu.edu/civil/admissions-and-aid/transferring.html>

#### Career & Educational Opportunities

Considered members of the oldest engineering profession, civil engineers design, construct, supervise, operate, and maintain large construction projects and systems, including roads, buildings, airports, tunnels, dams, bridges, and systems for water supply and sewage treatment. Civil engineering is the broadest of the engineering disciplines, extending across many technical specialties that interact with one another. All civil engineering students must choose one of the eight tracks in the BS in Civil Engineering curriculum: construction engineering and management, coastal and ocean, environmental, general, geotechnical, structural, transportation, and water resources. Regardless of specialty, most civil engineers share a common value – serving their communities by improving the quality of life. For more information please visit [careercenter.tamu.edu](http://careercenter.tamu.edu).

#### Transfer Course Sheet Notes

1. Admission preference is given to applicants with the highest GPA and the most appropriate courses completed.
2. Transfer applicants are encouraged to complete [University Core Curriculum](#) coursework found in the [Undergraduate Catalog](#) unless specified above.
3. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Engineering at Texas A&M University with the 2021-2022 Undergraduate Catalog having the most extant and definitive information.
