Career & Educational Opportunities

The dance concentration curriculum leads to a Bachelor of Science in University Studies. It is designed to serve students who are in good academic standing with the University (2.0+ GPA) and are specifically seeking an interdisciplinary degree plan which provides preparation in dance history and production. Students complete courses in the foundations of dance, dance production, and dance composition, and technique courses in various forms of dance. This option is different from Dance Science because it also requires two minors in addition to the Dance concentration and core curriculum classes. Although there are several options for minors, the business, music, and theatre arts minors complement this major. For more information please visit careercenter.tamu.edu.
